HURRICANE LOSSES.

Hundreds Killed and
Crippled.

SEISMIC SHOCK IN ILLINOIS.

Lake Erie Railroad Strike
Continues.Rumors of Russian Prohibition
on Wheat Untrue.

Cyclone Losses.

PARIS, Aug. 21.—The latest reports from the island of Martinique state that 218 people were killed by the recent cyclone. This was in the coast towns alone. The towns of the interior are not heard from yet, and until reports are received from them the total number of killed will not be known. It is thought the number of dead in the interior towns will be equal to or greater than in the coast towns.

It is known, however, that houses, crops, and trees from one end of Martinique to the other were demolished or flattened beyond hope of recovery. The loss to coffee and sugar plantations is great. The troops at the disposal of the government and a large body of volunteers are busy at work in all directions succoring the injured and burying the dead. The physicians of the island had hardly a hour's rest for the first 48 hours following the hurricane's passage, and citizens of all classes are doing their utmost to help the sufferers and to repair so far as possible the damage done.

A rough estimate makes the number killed 300 and the injured 1,000.

Railroad Strike.

FRIDAY (Ohio), Aug. 21.—The strike on the Lake Erie & Western Railroad is extending and unless some terms are soon agreed upon the entire line will be blocked. The main shops of the road at Lima are shut down owing to the strike and this throws 200 more men out of employment.

LAFAYETTE (Ind.), Aug. 21.—Officials of the Lake Erie Road are unable to move freight trains here to-day; not a wheel has turned. The strikers are orderly.

Bank Suspends.

MONTGOMERY (Ala.), Aug. 21.—At noon to-day notice was posted in the Farmers National Bank that the directors of the bank had agreed to suspend payment temporarily. The cause is stated as being the inability to raise money to make good the paper drawn by others and protested in New York. Matters will be soon arranged, no one suffering any loss.

China Alarmed.

SHANGHAI, Aug. 21.—A strong Chinese squadron has been ordered to Nankin and another is assembling north of the Yang Tse Kiang. The Pekin government is alarmed at the threatened appeal to force by the powers. The Chinese government expedition to lay telegraph lines was expelled by the people in Yunna.

Chicago Market.

CHICAGO, Aug. 21.—Wheat easy, cash, \$1.04@1.04½; September, \$1.03@1.03½; December, \$1.05½. Corn steady, cash, \$0.66½; September, \$0.65½; May, \$0.47½. Oats firm, cash, \$0.31½; May, \$0.34½. Barley steady, \$0.65@0.66. Pork easy, cash \$10.20; October, \$10.32½. Lard dull, cash, \$6.55@6.57½; October, \$6.67½.

To Jump the Vatican.

ROME, Aug. 20.—The government organs assert that if the next conclave is held abroad, the government will occupy the Vatican and exclude the new Pope from it.

Russian Rumors Untrue.

BERLIN, Aug. 21.—The report that the Russian government would place a prohibitive export duty on wheat is officially declared in St. Petersburg to be untrue.

Seismic Shock.

JERSEYVILLE, Aug. 21.—An earthquake was felt here last night. Houses trembled and some persons were so frightened that they jumped out of bed.

British Bark Affre.

SAN FRANCISCO, Aug. 21.—A fire started in the forehold of the British bark Gwalla at Selby's dock at Port Costa this morning. The Selby company made an effort to flood the hold with salt water, and tugs were despatched from this city. The latest reports stated the vessel had been towed to the flats off Benicia and there beached and that the tugs were pumping her full of water. The Gwalla is an iron bark of fourteen hundred tons, and arrived from Newcastle, Australia, on July 31st with a cargo of coal, one hundred tons of which is still aboard.

American Wheel Company.

CHICAGO, Aug. 21.—Attorney Morris of the American Wheel Company said this morning that the creditors would undoubtedly be paid, in full. He said that the list of this month the assets were \$4,074,000 and liabilities \$1,800,000. N. C. Butler was appointed receiver and an order issued by the court allowing him to continue the business so that contracts amounting to almost \$2,000,000 can be carried out. A meeting of the stockholders and creditors will be held to-morrow, when it is expected some satisfactory plan of settlement will be agreed on.

The Chertow Overflow.

MACON (Mo.), Aug. 22.—Heavy rains for the past few days have caused the Chertow river and Muscel Fork, running through the western portion of Macon county, to overflow, and hay, wheat and oats in stacks and shocks were washed away. Corn fields and fences were destroyed, and a large amount of live stock drowned. It is feared the railroad and wagon bridges will be washed out. It is impossible to estimate the loss caused by the high water, but it is tremendous.

A Judge Arrested.

SAN ANTONIO (Tex.), Aug. 21.—Judge Roy Bean Lugley has been arrested for smuggling from Mexico. It is alleged he has been concerned in running horses from Mexico into the United States. He is one of the most celebrated characters of the frontier and has been Justice of the Peace for many years. He stoutly protests his innocence.

Wheat Market.

BERLIN, Aug. 21.—The grain market opened firmer this morning and closed strong and higher.

CHICAGO, Aug. 21.—Wheat opened strong, excited and higher this morning. December, starting at \$1.08½, declined to \$1.06½, advanced to \$1.07½, dropped to \$1.05½ and rose again to \$1.06½ at 1 o'clock.

Express Train Robbed.

ATLANTA (Ga.), Aug. 21.—The night express train from Macon last night was held up at Collin's station by three masked men and the express safe robbed of \$30,000.

Political Heretics.

WANTERSTER (Pa.), Aug. 21.—The State Federation of Labor, in a meeting here, decided not to recognize the Socialist Labor party or Farmers Alliance, and declared themselves opposed to affiliating with any political party as a body.

Giant Powder Explosion.

BURKE (Idaho), Aug. 21.—Two hundred pounds of giant powder exploded at the mouth of the lower tunnel of the Black Bear mine yesterday. Four men were suffocated and the bodies of four other miners have not yet been found.

From Heart Disease.

CHICAGO, Aug. 21.—The coroner's jury at the inquest over the remains of Clark Woodman, the Omaha millionaire, found dead in bed at the Grand Pacific, brought in a verdict of death from heart disease.

General Alger Denies.

BENNINGTON, Aug. 21.—General Alger denies the authenticity of the report printed in the New York morning papers that Blaine told him he had entered the field as a Presidential candidate.

Firemen Killed.

PORTLAND (Ore.), Aug. 21.—This morning fire destroyed the residence of F. S. Tripp. Thomas O'Keefe, a member of Hose Company No. 1, was killed by falling under the wheels.

Assigned With Assets.

NEW YORK, Aug. 21.—William P. Dane, manufacturer and dealer in cards and paper, assigned to-day; liabilities given at \$75,000, with assets sufficient to cover this.

THE SALTON SEA.

Convict's Conspiracy
at Walla Walla.

NO BRITISH BUYERS FOR BEER.

The President's Party Caught
Pickering.Salvador Solicits a Secretary
to Interfere.

Convict's Conspiracy.

WALLA WALLA, Aug. 21.—A desperate attempt was made at the Penitentiary yesterday by convicts to escape. Two prisoners were killed and one wounded. The break was frustrated only by the bravery of Warden McClees and the coolness of the guards. The plot had been arranged among about forty prisoners to make a break for liberty. Four men seized the Warden and four more jumped onto the locomotive. The engineer reversed the engine and put on a full head of steam. This sent the locomotive in the opposite direction and spoiled the original plan, and the convicts were finally overcome.

Fruit Sales.

CHICAGO, Aug. 21.—Porter Bros. & Co. sold to-day five car loads of California fruit. Bartlett pears, \$1.50@1.80; half crates Muscat grapes, \$1.40@1.80; full crates, \$2.55; Suesquehanna peaches, 80c@95c; Crawford peaches, 70c@95c; Orange clings, 90c; egg plums, 80c@95c; half crate Tokays, \$1.85@1.95; German prunes, 55c@85c; Beurre Hardy pears, \$1.65; silver prunes, 85c; golden drop plums, 85c; Victoria plums, 75c.

NEW YORK, Aug. 21.—Porter Bros. & Co. sold Bartlett pears at \$1.85@2.25; Crawford peaches, \$1.15; plums, 90c@1.00; prunes, \$1.00@1.10.

Asked to Interfere.

ST. LOUIS, Aug. 21.—A dispatch from the City of Mexico says: It is stated by the *Tempo* that General Ezeta, President of Salvador, telegraphed the Secretary of Foreign Affairs of this republic asking him to use his good offices in preventing a new war between Salvador and Guatemala.

The same paper also states that the Secretary telegraphed to General Alatorre, the Mexican Minister, to prevent war if possible.

Strike at Cramp's.

PHILADELPHIA, Aug. 21.—Inquiry to-day at Cramp's ship yards proved that the strike of riveters, caulkers, shippers, holders-on and rivet heaters had not assumed the proportions reported by the men last night. It was stated the number of men and boys who quit work was about 500, but 190 was all who were out. Henry Cramp said to-day the strike would not amount to anything, as the firm could get all the men it wanted.

Walton Sea.

SAN DIEGO, Aug. 21.—A man from New river basin brings information that two large streams of water are flowing into the Salton Sea from the Gulf of California via New river. This makes two sources of supply for the inland sea and goes far to establish the claim that the lake will be permanent.

President's Party.

MR. HARRISON, Aug. 21.—President Harrison and party went this morning on a fishing excursion. The President returned from his fishing excursion this afternoon with a good string of pickerel.

Cashier Arrested.

NEW YORK, Aug. 21.—Thomas S. Findlay, the trusted cashier and bookkeeper of the wholesale boot and shoe house of Wallace, Elliott & Company, was arrested for embezzling \$22,000.

No British Buyers.

ST. LOUIS, Aug. 21.—The report that the Anheuser Busch Brewery has been sold to an English syndicate for \$10,000,000, so far as can be learned, is erroneous.

Almy Pleads.

HANOVER (N. H.), Aug. 21.—Almy, the murderer caught yesterday, to-day pleaded not guilty to the charge.

Grain Market.

SAN FRANCISCO, August 21.—Wheat, buyer '91, \$1.73½; season, \$1.74½.

Militia To Be Organized.

ST. LOUIS, Aug. 21.—The *Post Dispatch* this afternoon says a scheme is on foot by which the militia of all States will be put under national pay and supervision. It was started by officers of the regular army at the encampment of the State militia at Camp Wickham the other day, and circulars and personal letters concerning it are now flying thick and fast about the country. It is the most radical plan to change the condition of the militia of the country that has arisen since the war. Officers Lieut. Robert E. Evans of the Twelfth Infantry and Lieutenant Joseph B. Batchelor of the Twenty-fourth Infantry gave a resume of the plan to the encampment of the standing of the army of the United States with those of other countries, they concluded that something must be done to dignify the militia forces of this country. The constitution of the "Association of National Guards of the United States" provides that the National Guards of the various States are to be enrolled in the National Guards of the United States, remaining under State control in times of peace, but being immediately available for National defense in case of war.

The Governor of any State will forward to the Secretary of War the application of any company of not less than sixty men who desire to join the association; each cavalry troop will be paid \$5,000 the first year it is organized and \$3,000 for each subsequent year. The artillery receives the same; infantry companies get \$1,000 each.

Lieutenants Evans and Batchelor said the organization is to be effected by a bill which Congress was to be asked to pass at the coming session. Petitions are being gotten up in all the States and the movement is widespread, but it has been kept quiet until it leaked out at Camp Wickham. The plan was approved by all the officers and men of the State militia, and also by the Adjutant-General at Wickham.

To-day's Races.

SANATOGA, August 21.—Weather cloudy, track moist.

Seven furlongs—Inferno won, Dr. Hashbrook second, Lord Harry third. Time, 1:28½.

Four and one-half furlongs—For-eigner won, Bonnie Bird second, Colondale third. Time, 58.

Six furlongs—Woodbena won, Bengal second, King Mac third. Time, 1:09.

Five furlongs—Centaur won, Luray second, Busted third. Time, 1:16½.

GUTTENBERG, Aug. 21.—Six furlongs—Kenwood won, Trinity second, Dixie third. Time, 1:14½.

Six and one-half furlongs—Dahlman won, Louis second, Jessie third. Time, 1:26½.

Five and one furlong—Theodosius won, Ranococas second, Little Jim third. Time, 1:57.

Six furlongs—Lester won, Refraction, filly, second, Irregular third. Time, 1:16½.

Seven furlongs—Mebican won, Salisbury second, Kimberly third. Time, 1:20½.

Seven furlongs—Little Fred won, Climax second, Anomaly third. Time, 1:29½.

Two Sisters Drowned.

BOSTON, Aug. 21.—Kate and Mary Walton, sisters 19 and 22 years old, belonging in Dorchester, were drowned in the bay early this morning. They were thrown into the water by the capsizing of a small boat.

Farmers' Alliance Split.

DALLAS (Texas), Aug. 21.—The split between the factions of the Farmers' Alliance on the sub-treasury scheme is growing wider and it has been excluded from the convention new in session.

Valuable Horse.

SAGINAW (Mich.), Aug. 21.—E. G. Rust and other Saginaw horsemen have purchased the stallion Rallen of A. J. Neal of Lewiston, Maine, for \$25,000.

TELEGRAPHIC BREVITIES.

Two German missionaries have been murdered in New Guinea.

John English Glencorse, Lord Justice of Scotland, died in London to-day.

The steamships Edam, from Rotterdam, and Mississippi, from London, arrived at Baltimore to-day.

The steamships Furst Bismarck and City of Berlin, from New York, and the Minnesota, from Baltimore, were sighted from London to-day.

Irish League.

BALTIMORE, Aug. 21.—The convention of the Irish National League of America will be held in Chicago next month instead of Baltimore.

Switchmen's Strike.

PEORIA (Ill.), Aug. 21.—Practically there is no change in the strike of switchmen on the railroads here to-day.

Where Is the Trade.

The Examiner of yesterday says: "It is an admitted and undeniable fact that San Francisco has lost much of its trade that belongs to her by right of position. Oregon and Washington on the north and Southern California and Arizona on the south, once got their supplies from this city. Now our trade with those sections are but a trifle—Chicago, St. Louis and even New York have taken it. Los Angeles, that used to buy from this city, has become an independent supplying center. And now it is likely that the Nevada market will be taken away as well. "There is no doubt that the cutting off of so much territory has largely interfered with the growth of the city. Part of the loss was almost inevitable with the tapping of the districts to the far North with the railroads of the East. But much of the territory wrested from the city should be supplied by our merchants to-day. Why is it that it is in the possession of more distant cities? Why can Chicago, St. Louis and New York supply territory that naturally belong to San Francisco merchants? "A Nevada paper that notes the loss of that State to San Francisco makes some ill-considered remarks about the cause of the trouble that are worth quoting: "The GAZETTE has called attention several times to the narrow-minded business policy of San Francisco's business men towards Nevada. A city situated so favorably geographically as San Francisco is ought to be able to control the trade of the whole Coast, but she is losing the confidence of the people and don't control a tenth part of it. She is selfish and will not touch a proposition that does not show \$2 for every \$1 invested and should be let alone by the people of this State, for goods of all kinds can be bought much cheaper at the East. "The paper quoted may not be correct in its statement of course, but there is no doubt about the effect. "The facts are certainly proof of bad methods in business, at the least. They should lead to earnest self-questioning among the merchants of the city to learn where the fault may be. If the fault lies with the merchants themselves, if there is not enough enterprise among them to seize opportunities when they present themselves or to search out opportunities when they lie hidden—if the spirit of our traders is only that of gamblers and speculators, there is little to be expected of them. But if this is the fact of the situation it may be remarked that San Francisco offers an excellent field for some enterprising men of the class who have built up Chicago—men who will take trade as a business proposition, not a gamble, push sales, and be content with reasonable profits. "If the cause of our loss of trade is outside of our merchants, lack of importing facilities, etc., they should not rest quiet under their disadvantages. United action can put a stop to discrimination with the help of the laws. If freight rates stand in the way the railroad company could probably be induced to give reductions if it was shown that it lay between reduction and no trade at all. If there is a lack of importing facilities, there are fast steamers to be had, and the ocean is open to all parts of the world. "So much of San Francisco's prosperity depends on trade that nothing that will increase the trade that we have or win back what has been lost should be neglected. It is full time that the city woke up to the facts of the situation and did something more than talk about it. "If the Nevada paper quoted above is wrong in its view of the San Francisco merchants, it undoubtedly reflects a sentiment of our customers that must be changed if we are to lose their trade. San Francisco had better find out what is the matter."

She is selfish and will not touch a proposition that does not show \$2 for every \$1 invested and should be let alone by the people of this State, for goods of all kinds can be bought much cheaper at the East. "The paper quoted may not be correct in its statement of course, but there is no doubt about the effect. "The facts are certainly proof of bad methods in business, at the least. They should lead to earnest self-questioning among the merchants of the city to learn where the fault may be. If the fault lies with the merchants themselves, if there is not enough enterprise among them to seize opportunities when they present themselves or to search out opportunities when they lie hidden—if the spirit of our traders is only that of gamblers and speculators, there is little to be expected of them. But if this is the fact of the situation it may be remarked that San Francisco offers an excellent field for some enterprising men of the class who have built up Chicago—men who will take trade as a business proposition, not a gamble, push sales, and be content with reasonable profits. "If the cause of our loss of trade is outside of our merchants, lack of importing facilities, etc., they should not rest quiet under their disadvantages. United action can put a stop to discrimination with the help of the laws. If freight rates stand in the way the railroad company could probably be induced to give reductions if it was shown that it lay between reduction and no trade at all. If there is a lack of importing facilities, there are fast steamers to be had, and the ocean is open to all parts of the world. "So much of San Francisco's prosperity depends on trade that nothing that will increase the trade that we have or win back what has been lost should be neglected. It is full time that the city woke up to the facts of the situation and did something more than talk about it. "If the Nevada paper quoted above is wrong in its view of the San Francisco merchants, it undoubtedly reflects a sentiment of our customers that must be changed if we are to lose their trade. San Francisco had better find out what is the matter."

The Examiner of yesterday says: "It is an admitted and undeniable fact that San Francisco has lost much of its trade that belongs to her by right of position. Oregon and Washington on the north and Southern California and Arizona on the south, once got their supplies from this city. Now our trade with those sections are but a trifle—Chicago, St. Louis and even New York have taken it. Los Angeles, that used to buy from this city, has become an independent supplying center. And now it is likely that the Nevada market will be taken away as well. "There is no doubt that the cutting off of so much territory has largely interfered with the growth of the city. Part of the loss was almost inevitable with the tapping of the districts to the far North with the railroads of the East. But much of the territory wrested from the city should be supplied by our merchants to-day. Why is it that it is in the possession of more distant cities? Why can Chicago, St. Louis and New York supply territory that naturally belong to San Francisco merchants? "A Nevada paper that notes the loss of that State to San Francisco makes some ill-considered remarks about the cause of the trouble that are worth quoting: "The GAZETTE has called attention several times to the narrow-minded business policy of San Francisco's business men towards Nevada. A city situated so favorably geographically as San Francisco is ought to be able to control the trade of the whole Coast, but she is losing the confidence of the people and don't control a tenth part of it. She is selfish and will not touch a proposition that does not show \$2 for every \$1 invested and should be let alone by the people of this State, for goods of all kinds can be bought much cheaper at the East. "The paper quoted may not be correct in its statement of course, but there is no doubt about the effect. "The facts are certainly proof of bad methods in business, at the least. They should lead to earnest self-questioning among the merchants of the city to learn where the fault may be. If the fault lies with the merchants themselves, if there is not enough enterprise among them to seize opportunities when they present themselves or to search out opportunities when they lie hidden—if the spirit of our traders is only that of gamblers and speculators, there is little to be expected of them. But if this is the fact of the situation it may be remarked that San Francisco offers an excellent field for some enterprising men of the class who have built up Chicago—men who will take trade as a business proposition, not a gamble, push sales, and be content with reasonable profits. San Francisco had better find out what is the matter."

SPREADING SEEDS.

Nature's Methods of Securing Fertile Seeds in Good Soil.
The methods by which seeds are distributed are most curious and interesting, says Knowledge. The legume of the pea splits along its two margins, the two halves falling away from each other and throwing off the seeds in various directions. The seed cases of the pansy and the violet explode, scattering the seeds forcibly.

In the gorse and the broom a sudden burst of the pods and a spring-like twist of their two halves effectually disperse the contents. On sunny July days the cracking sounds produced by the bursting pericarps may be distinctly heard. The mature fruit of Ecballium elaterium separates from its stock and ejects its seeds with great rapidity through the orifice left by the rupture. The sporangia of many ferns (bracken) have an elastic ring, which is probably intended for the energetic dispersal of the spores. In certain plants the scales of the cone, when thoroughly dried by the hot days of the summer following that of its production, open with a jerk, forcibly ejecting the winged seeds. Frequently a number will burst together, and then the sound may be heard at a great distance.

In the expulsion of the seeds of the balsam (impatiens) the contact of some outside object is of advantage. The seed case consists of one cell with five valves, and, if touched by accident when ripe, it at once bursts open, the valves coiling themselves violently, and springing from the stalk, scatter the seeds in all directions. In the poppy and snapdragon a still larger share of the work of releasing the seeds falls to an outer agency, for here the pericarp consists of a capsule which opens along the top by valves that leave small pores through which the seeds fall out when the capsules are shaken by the wind. In all of these various methods of the expulsion of seeds it would seem that they are due to mechanical causes, and depend in most instances (impatiens excepted) upon a certain condition of dryness in themselves, and upon the state of the surrounding atmosphere.

Passing from the modes in which dry fruits, consisting of a number of seeds enveloped in tough pericarps, effect dissemination, we have to consider next the means which obtain among dry fruits whose seeds are not collectively inclosed in a strong seed case. Here, too, we find the forcible ejection of seeds. Those of the oat are scattered with such energy that on a fine, dry day the snapping thus caused is distinctly audible.

But the most curious provision possessed by seeds of this class for self-dissemination is the hygroscopic awn. In the wild oat (avena fatua), for example, there are attached to the glumella (a small, leafy structure connected with the seed), a spiral awn covered with numerous fine hairs, and this awn has the power of expanding when moist and of contracting when dry.

Thus the attached seed is constantly on the move with the changes in the weather, the hairs clinging to any object met with, until germination or destruction ends its journey. The seed of corn, too, is provided with a similar awn, which is furnished with minute teeth that point toward its apex. The seed, when lying on the ground, naturally expands with the moisture of the night and contracts with the dryness of the day, but, as the teeth prevent its moving toward the point of the awn, all motion must be in the direction of the base of the seed, which will thus travel many feet from the parent stalk.

COST OF FRENCH GOVERNMENT.

The Official Salary List of Our Big Sister Republic Not Large.
The best paid functionary in France is, of course, the president of the republic. He has a salary of \$120,000, plus \$60,000 for household expenses, and as much again for cost of traveling. The president of the chamber of deputies, the president of the senate and the governor of Algeria each receive a salary of \$20,000, the cabinet officers have a salary of \$2,000, and all these officials have residence rent free. Gen. Fevrier, grand chancellor of the Legion of Honor, receives a salary of \$8,000; the procureur general has \$5,000; president or chief justice of the court of appeal, \$2,000; an archbishop gets \$3,000; a bishop \$2,000; the prefect of the Seine and the prefect of police, \$8,000. The marshals of France—there are only two now, MacMahon and Canrobert—each receives \$6,024; generals of divisions, \$3,900; major generals, \$2,640; inspector generals of army corps, \$2,990; and the seventeen commanders of army corps—generals of divisions—each a supplement of \$2,270 to their salary. A colonel of infantry receives \$1,620; lieutenant colonel, \$1,320; major, \$1,000; captain, \$640; first lieutenant, \$360; second lieutenant, \$200, and a sub-lieutenant, \$120. A colonel of cavalry receives \$1,705; lieutenant colonel, \$1,395; major, \$1,137; captain, \$640; first lieutenant, \$360; second lieutenant, \$200 and sub-lieutenant, \$120. Gen. Sausier, military governor of Paris, has \$5,000 in addition to his salary as a general of division, and there are 142,879 horses in the French army. France has an ambassador at Berlin, Bern, Constantinople, London, Madrid, Rome, the Vatican, St. Petersburg and Vienna, each receiving \$8,000. Ministers plenipotentiary of the first and second class sent to the other capitals receive \$6,000 and \$4,000 per annum respectively. The best consul is that of New York, where my esteemed friend, the Count d'Alais, receives \$11,000. A sum of \$8,000 is inscribed in this year's budget for diplomatic presents.

An inspector general of public instruction is paid \$2,400; the vice rector of the Academy of Paris, \$3,800; the director of the superior normal school, \$2,400; each of the professors at the college of France, \$2,000; director of fine arts, \$3,000; director of the Paris conservatoire, \$2,000; director of the observatory, \$3,000; and the maintenance of his large telescope costs an additional \$1,000. Members of the French academy, besides having the gift of immortality, are allowed \$300 each, but the perpetual secretary of that illustrious assemblage receives \$1,200. The secret police force of France costs \$300,000, and there is one department of the government, that of religion, that burns \$350 worth of candles every year.

The Examiner of yesterday says: "It is an admitted and undeniable fact that San Francisco has lost much of its trade that belongs to her by right of position. Oregon and Washington on the north and Southern California and Arizona on the south, once got their supplies from this city. Now our trade with those sections are but a trifle—Chicago, St. Louis and even New York have taken it. Los Angeles, that used to buy from this city, has become an independent supplying center. And now it is likely that the Nevada market will be taken away as well. "There is no doubt that the cutting off of so much territory has largely interfered with the growth of the city. Part of the loss was almost inevitable with the tapping of the districts to the far North with the railroads of the East. But much of the territory wrested from the city should be supplied by our merchants to-day. Why is it that it is in the possession of more distant cities? Why can Chicago, St. Louis and New York supply territory that naturally belong to San Francisco merchants? "A Nevada paper that notes the loss of that State to San Francisco makes some ill-considered remarks about the cause of the trouble that are worth quoting: "The GAZETTE has called attention several times to the narrow-minded business policy of San Francisco's business men towards Nevada. A city situated so favorably geographically as San Francisco is ought to be able to control the trade of the whole Coast, but she is losing the confidence of the people and don't control a tenth part of it. She is selfish and will not touch a proposition that does not show \$2 for every \$1 invested and should be let alone by the people of this State, for goods of all kinds can be bought much cheaper at the East. "The paper quoted may not be correct in its statement of course, but there is no doubt about the effect. "The facts are certainly proof of bad methods in business, at the least. They should lead to earnest self-questioning among the merchants of the city to learn where the fault may be. If the fault lies with the merchants themselves, if there is not enough enterprise among them to seize opportunities when they present themselves or to search out opportunities when they lie hidden—if the spirit of our traders is only that of gamblers and speculators, there is little to be expected of them. But if this is the fact of the situation it may be remarked that San Francisco offers an excellent field for some enterprising men of the class who have built up Chicago—men who will take trade as a business proposition, not a gamble, push sales, and be content with reasonable profits. CON STIPATION

Afflicts half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches this important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose prevents return. We refer by permission to G. R. Elkington, 125 Locust Avenue, San Francisco; J. H. Brown, Petaluma; H. S. Winn, Geary Court, San Francisco, and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Elkington, writes: "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have a headache. After taking one bottle of J. V. S., I am in splendid shape. It has done wonderful things for me."

Joy's Vegetable Sarsaparilla

Most modern, most effective, largest bottle same price, \$1.00, six for \$5.00.
For sale by S. J. Hodgkinson, Reno.
